1. Consolidated Operating Results

In the electronic entertainment division for the three month period ended June 30, 2007, "Nintendo DS", a handheld gaming device which enjoyed continuous robust sales worldwide, sold a total of 6.98 million units in this three month period and 47.27 million units life-to-date. "Nintendo DS" software titles had favorable performance in sales as well, led by "Pokémon Diamond and Pokémon Pearl" which were launched last year in Japan. Diamond and Pearl sold 3.55 million units during the first quarter on a worldwide basis driven by their April release in the United States and have reached life-to-date unit sales of 8.76 million. In addition, long-term strong selling titles such as "Nintendogs", "Brain Age" series, and "New Super Mario Bros." contributed to the strong sales.

As for console business, "Wii" hardware sold a total of 3.43 million units worldwide in this three month period (life-to-date: 9.27 million units) and its software titles "Super Paper Mario" and "Mario Party 8", released during the period, sold over million units. "Wii Sports" and "Wii Play" posted strong sales as well following last year's release.

2. Consolidated Financial Position

During the three month period ended June 30, 2007, total assets decreased by 24.2 billion yen compared to the previous fiscal year-end primarily due to the decrease in cash and deposits resulting from the payment of income taxes and cash dividends.

As for consolidated cash flows, net cash from operating activities decreased by 60.3 billion yen mainly due to the 82.2 billion yen payment of income taxes and increases in notes and trade accounts receivable and inventories while income before income taxes and minority interests resulted in 132.0 billion yen. Net cash from investing activities increased by 164.9 billion yen primarily due to substantial proceeds from time deposits. Net cash from financing activities decreased by 70.7 billion yen primarily due to a substantial increase in year-end cash dividends, resulting in a total payment of cash dividends: 70.6 billion yen. As a result, net cash and cash equivalents during the three month period ended June 30, 2007 increased by 61.4 billion yen to 750.1 billion yen versus the beginning of the reporting period.

2. Reason for modification

Net sales forecast is being revised due to worldwide robust sales of both "Nintendo DS" (a handheld gaming device) and "Wii" (a home gaming console). In addition, considering recent trends in foreign currency exchanges, assumed exchange rates are being revised as follows: 118 yen per U.S. dollar (previous rate: 115 yen), 155 yen per euro (previous rate: 150 yen). Accordingly, both net sales, operating income, income before income taxes and extraordinary items, net income, and net income per share for the six months ending September 30, 2007 and fiscal year ending March 31, 2008 are expected to increase beyond the previous forecast.

The non-consolidated based financial forecast is being revised as well, however, it has been omitted from this submission since it is not significant as investment data.

Notice of Dividend Forecast Modification

Nintendo Co., Ltd. (the "Company") hereby modifies its dividend forecast for the fiscal year ending March 31, 2008 (April 1, 2007 - March 31, 2008) based on "Notice of Financial Forecast Modifications" announced today as follows.

1. Reason for modification

It is the Company's basic profit distribution policy to determine the level of direct profit returns to our shareholders by evaluating profit levels in each fiscal period. For the fiscal year ending March 31, 2008, the annual dividend per share will be established at the higher of the amount calculated by dividing 33% of consolidated operating income by the total number of outstanding shares, excluding treasury stock, as of March 31, 2008 rounded up to the 10 yen digit, or the amount calculated based on the 50% consolidated net income standard rounded up to the 10 yen digit.

Based on this policy, if actual financial results are in line with our modified forecasts, the annual dividend per share for the fiscal year ending March 31, 2008 is expected to be 960 yen (interim: 140 yen, year-end: 820 yen).

Although financial results for the fiscal year ending March 31, 2008 are yet to be finalized, this modification has been made to provide a more accurate dividend forecast.
